This digital certification will appear in a pop-up or status bar on the document, display a blue ribbon, and declare that the document was certified by the Federation of State Medical Boards with a valid certificate issued by GlobalSign. This document certification can be validated by clicking on the Signature Properties of the document.

The blue ribbon symbol is your assurance that the digital certification is valid, the document is authentic, and the contents of the document have not been altered

An invalid digital certification display means either the digital signature is not authentic, or the document has been altered. A document with an invalid digital signature display should be rejected.

If the document displays an "Author Unknown" message, then this can have two possible meanings: The certificate is a self-signed certificate or has been issued by an unknown or untrusted certificate authority, or the revocation check could not be completed. If you receive this message, make sure you are properly connected to the internet. If you have an internet connection and you cannot validate the digital certificate, reject the document.

INTERPRETATION OF RESULTS

USMLE transcripts include a complete examination history. On those Step examinations for which numeric scores are reported, a three-digit scale is used. Most scores fall between 140 and 260 on this scale. The recommended minimum passing score is shown on the front of the transcript next to the examinee's score for each administration along with a pass/fail outcome. Test results reported as passing represent an exam score of 75 or higher on a two-digit scoring scale. The level of proficiency required to meet the recommended minimum passing level for each USMLE Step is reviewed periodically and is subject to change. Such changes do not alter pass/fail outcomes from prior test administrations.

For examinations with reported scores, the Standard Error of Measurement (SEM) provides an index of the variation that would be expected to occur if an examinee were tested repeatedly using different sets of items covering similar content. The SEM is usually in the range of 4 to 8 points.

STEP 1 AND STEP 2 CLINICAL SKILLS (CS)

Step 1 examinations taken on or after January 26, 2022 are reported as pass/fail, with no numeric score; Step 1 examinations taken before January 26, 2022 will continue to be reported with a 3-digit score. All Step 2 CS results are reported as pass or fail, with no numeric score. Test results reported as passing represent an exam score of 75 or higher on a two-digit scale.

Circumstances not in connection with an administration shown on this transcript may result in one or more annotations and an explanation or instructions to contact the appropriate individual or organization. The Note will appear at the end of the document.

PHYSICIAN DATA CENTER INFORMATION APPEARING AS "NOTE"

The Physician Data Center of the Federation of State Medical Boards (FSMB) contains actions reported to the FSMB by U.S. licensing and disciplinary boards, the U.S. Department of Health and Human Services, government regulatory entities and international licensing authorities. To be included in the Physician Data Center, an action must be a matter of public record or be legally releasable to state medical boards or other entities with recognized authority to review physician credentials. Certain actions reported to and released by the Physician Data Center are not disciplinary or otherwise prejudicial in nature. Such actions are reported to ensure that records are complete and to assist in preventing misrepresentation or the use of lost or stolen credentials by unauthorized persons. Once reported to the FSMB, an action becomes part of the permanent record of the individual physician, and the existence of such an action may be indicated on the USMLE transcript by a Note.
